

# CUSTOMER COMPLAINT CARD

For the attention of the management/customer relations department

Please end the  
**compulsory piped music**  
in your establishment.  
**Many dislike it ...**

I was driven away from here by the piped music you impose on your clients/customers. Many people (in a NOP poll 34% hate piped music, 30% like it, 36% are indifferent) object to being forced to listen to muzak and leave venues that play it. We would not tolerate it if, on visiting a restaurant, the waiter forced our heads back and filled our mouths with baked beans - but you fill our ears with the aural equivalent and we have no choice about it. I will happily return if you switch it off.

# CUSTOMER COMPLAINT CARD

For the attention of the management/customer relations department

Please end the  
**compulsory muzak**  
in your establishment.  
**Many dislike it ...**

I was driven away from here without buying anything because of the piped music. Many people dislike being forced to listen to muzak and choose to leave rather than endure it. You would not wish to be forced to breathe in smoke-polluted air, so why force this noise pollution on others? Polls of the UK population show that many people hate piped music which is the third most hated aspect of modern life. Please switch it off. I will then happily return.
